# INTRODUCTION

Education is a fundamental right of every individual, and the quality of education plays a significant role in shaping a person's future. However, in today's fast-paced world, traditional educational systems are not always enough to meet the diverse needs of students. Many students require additional help and support to excel in their studies, and tutoring is an effective way to provide this assistance.

The tutoring website project aims to develop a platform that connects students with experienced tutors and provides them with the resources and tools they need to succeed academically. The website is designed to be user-friendly and accessible to students of all ages and backgrounds, providing them with a virtual learning environment that is both safe and engaging.

This project report will detail the process of developing and implementing the tutoring website, including the objectives, methodologies, and technologies used. The report will also discuss the key features and functionality of the website, such as the tutor search engine, the online classroom environment, and the registration and login system.

Finally, the report will outline plans for future development and enhancements to the website, ensuring it remains a valuable and relevant resource for students for years to come.

Overall, this project report will serve as a comprehensive guide to the development and implementation of a modern, effective, and user-friendly tutoring website that aims to improve the academic outcomes of students countrywide.

# **OBJECTIVES AND FUNCTIONAL REQUIREMENTS OF THE WEBSITE**

## **OBJECTIVE**

*The main target of this website is to connect students who need online and physical tuition in Sri Lanka with talented tutors.*

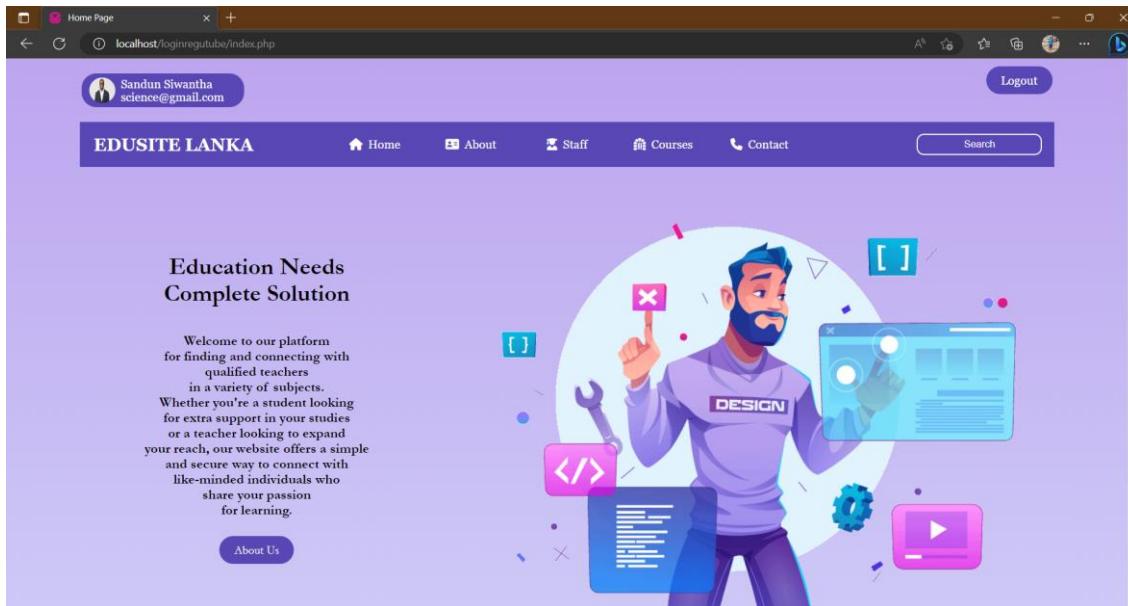

- To provide a user-friendly platform that allows students to easily search for tutors based on subject, level of education, and location.
- To ensure that all tutors on the platform are qualified, experienced, and have passed a thorough background check.
- To offer a variety of tutoring options, including in-person, online, group sessions, and one-on-one sessions.
- To provide tools for students and tutors to communicate and collaborate effectively, such as scheduling tools, messaging systems, and progress tracking.
- To ensure that the pricing for tutoring services is competitive and transparent.
- To provide a platform where tutors can easily connect with potential students and grow their business.
- To offer tools for tutors to manage their schedules, communicate with students, and track their progress.
- To ensure that tutors are paid fairly and on time for their services.
- To provide a supportive community where tutors can connect with other professionals in their field and share knowledge and resources.
- To collect feedback from tutors in order to continuously improve the platform and the services it

We have created our website including 8 + web pages where each page has a different purpose.

- Home page (Index.php)
- Staff page (Staff.php)
- Login page
  1. Tutor login page (TeachLogin.php)
  2. Student login page (Login.php)
- Register page
  1. Tutor register page (Teach\_Register.php)
  2. Student register page (Register.php)
- Subject pages
  1. Mathematics page (Maths.php)
  2. Science page (Science.php)
  3. ICT page (Ict.php)
  4. English page (English.php)

..... +add more
- Tutor profile page (Sample.php)
- Tutor Update profile page (teach\_update\_profile.php)
- Student Update profile page (update\_profile.php)
- Tutor Registration form page (Tutor\_reg.php)

# DESIGN OF THE WEBSITE

A screenshot of the "About Us" section of the website. It features three columns: "User-friendly interface", "Feedback and support", and "Detailed teacher profiles". Each column contains descriptive text and small images. Below this section is a table with three rows: "Teachers" (4), "Students" (100), and "Subjects" (4). The right side of the page has a large green decorative element with the number "5" inside a bracket.

## Certified Tutors

**Sandun Siwantha**

Sandun Siwantha is a dedicated and experienced Science teacher who is passionate about inspiring students to pursue their interests in the natural world. With a Bachelor's degree in Science and a teaching certification, Sandun has a strong foundation in the subject matter and pedagogical techniques required to effectively teach Science. He has several years of experience teaching students of various levels and backgrounds, and is skilled in creating engaging lesson plans and hands-on activities that promote student learning and curiosity.

**P. Sadhushan**

P. Sadhushan is a highly skilled and experienced Mathematics teacher who is passionate about helping students develop their mathematical thinking and problem-solving skills. With a Bachelor's degree in Mathematics and a teaching certification, Sadhushan has a strong foundation in the subject matter and pedagogical techniques required to effectively teach Mathematics. He has several years of experience teaching students of various levels and backgrounds, and is skilled in creating engaging lesson plans and activities that promote student learning and curiosity.

**Senuri Kavindya**

Senuri Kavindya is a dynamic and enthusiastic English teacher who is dedicated to helping students develop their language skills and become effective communicators. With a Bachelor's degree in English and a teaching certification, Senuri has a strong foundation in the subject matter and pedagogical techniques required to effectively teach English. She has several years of experience teaching students of various levels and backgrounds, and is skilled in creating engaging lesson plans and activities that promote student learning and foster a love of language.

**Muditha Udayangani**

Muditha Udayangani is a knowledgeable and experienced ICT teacher who is passionate about helping students develop their technical skills and become effective problem-solvers. With a Bachelor's degree in Computer Science and a teaching certification, Muditha has a strong foundation in the subject matter and pedagogical techniques required to effectively teach ICT. She has several years of experience teaching students of various levels and backgrounds, and is skilled in creating engaging lesson plans and activities that promote student learning and creativity.

## Our Subjects

**ICT**

ICT (Information and Communication Technology) is a subject that involves the study of technology and its applications. It covers a wide range of topics, including computer programming, networking, databases, and web design. A good ICT teacher can help students develop their technical skills, problem-solving abilities, and digital literacy, which are essential for success in the modern world.

**Mathematics**

Mathematics is a subject that involves the study of numbers, quantities, and shapes. It covers a wide range of topics, including arithmetic, algebra, geometry, trigonometry, and calculus. A good Math teacher can help students develop their problem-solving skills, logical reasoning, and mathematical thinking, which are essential for success in many fields, including science, engineering, and finance.

**Science**

Science is a subject that involves the study of the natural world and its phenomena. It covers a wide range of topics, including biology, chemistry, physics, and earth science. A good Science teacher can help students develop their curiosity, critical thinking, and scientific inquiry skills, which are essential for understanding the world around us and solving complex problems.

**English**

English is a subject that involves the study of language, literature, and communication. It covers a wide range of topics, including grammar, composition, reading comprehension, and critical analysis of texts. A good English teacher can help students develop their language skills, improve their writing, and enhance their ability to express themselves clearly and persuasively.

# **TOOLS USED IN THE DESIGN AND DEVELOPMENT OF THE WEBSITE**

| <b>TOOL</b>         | <b>USES</b>   |
|---------------------|---|
| HTML                | Used in website creation to structure and format content  |
| CSS                 | used in website creation to control the visual appearance and layout of web pages   |
| JAVASCRIPT          | Used in website creation to add interactivity, dynamic behavior, and client-side functionality, enhancing user engagement, and enabling the development of interactive web applications.      |
| PHP                 | Used in website creation to handle server-side processing, database interactions, and dynamic content generation, allowing for the creation of dynamic and interactive websites.              |
| www.freepik.com     | used in get high-quality graphic resources, including icons, illustrations, and templates   |
| www.sublimetext.com | Used for website development due to its powerful features, efficient code editing capabilities, and extensive plugin ecosystem, which enhance productivity and streamline the coding process. |
| github.com          | Used for version control and collaborative development, allowing multiple developers to work on a project simultaneously, track changes, and easily manage code repositories.                 |
| netbeans.apache.org | Used for website development due to its comprehensive set of tools, code navigation features, and integrated support for multiple programming languages.                                      |

## INITIAL PLAN VS. ACTUAL PLAN

| INITIAL PLAN  | ACTUAL PLAN   |
|---|---|
| Make the page for a dark color theme  | A light color theme is used to make the page                              |
| Create the form so that the database is updated and update the profile with that data | Manually update the profile by taking the data from the form for an email |
| Making a fixed footer with more details   | made with a little detail with a scrollable footer                        |

# WORK CONTRIBUTION TABLE

## Coordinated by,

|                       |             |
|-----------------------|-------------|
| Back-end Development  | : Sandun    |
| Front-end Development | : Senuri    |
| Database Handling     | : Sadhushan |
| Content Writing       | : Muditha   |

"We would like to extend our heartfelt appreciation and recognition to each member of our group who contributed their time, effort, and expertise to bring this website project to life. The success of this endeavor would not have been possible without the dedication and hard work of each team member. Their creativity, collaboration, and attention to detail have truly elevated the quality of this website. We would like to express our gratitude to Sandun, Sadhushan, Senuri, and Muditha for their invaluable contributions and commitment throughout the entire project. Their combined skills, professionalism, and unwavering determination have made this website a remarkable achievement. We are incredibly proud of our team and the remarkable work we have accomplished together."
